

## Public Gets Bid To Tour Allen-co Home for Aged

Believing every Allen-co resident should have the opportunity to see what this county is doing for its aged, County Home Supt. Floyd W. Jett Saturday announced an open house for this week.

The Jetts have been operating the home on the Lafayette-rd., Route 81, for 13 months during which a number of improvements have been made.

says Jett when referring to the three commissioners, H. T. Morris, James M. Jacobs and Frank E. McClain, who must approve all expenditures.

The county spent a total of \$79,459.18 on the county home last year as compared to \$54,321 in 1948. Of the total 1949 expenditures \$22,400.52 was for repairs.

Major improvements include a complete rewiring of the main building, installation of a fire alarm system and painting of the buildings and fire escapes. Re-decorating of the interior of the home now is in progress and should be completed soon.

OLD STOVES have been replaced by electric ranges and a 60-cubic foot deep freezer installed for storing up to 2,000 pounds of meat. The home formerly rented lockers for meat storage.

There are 90 residents at the home. Their ages vary from 35 to 93 years with many of them in the 80s. Fourteen persons are employed to operate the home and the 325-acre farm on which it is located.

One thing certain Allen-co, O., never will receive the notoriety that Allen-co, Ind., did a year or so ago when a number of inmates died of malnutrition.

DURING JETT'S first year as superintendent, the county home farm produced and the residents consumed 5,840 gallons of milk, 17,200 pounds of pork, 2,500 pounds of beef, 450 chickens, 1,383 dozens of eggs and a large quantity of fruits and vegetables which were canned at the home or at a custom cannery.

In addition there was \$12,765.40 worth of groceries and provisions purchased from local wholesale houses.

Surpluses of eggs and lard were sold. Herds of Holstein cows and Chester White hogs are kept on the farm which also produces the necessary feed for them.

THE LAST TEAM of horses was sold during the year and all farm work now is done with tractors.

General appearance of the farm also has been improved in recent months with the cleaning of fence rows and removal of some trees and brush. Some new fences have been put up and the superintendent expects to erect more and make other improvements.

Jett also hopes that some day a city water line may be extended to the home as was the case two years ago with the children's home in Shawnee-lp.

ONE OF THE BUILDINGS on the farm is a hospital which the commissioners and Jett hope in not too distant future they will be able to replace. There are 16 patients in it now.

The 75-year-old three-story home itself will have to be replaced eventually but a new hospital probably will be erected first.

The superintendent, a former city bus driver, lived on the High-st-rd., just a mile away, for many years and admits he himself knew little about the home before assuming charge Mar. 1, 1949. He had visited it only once.

"Other people shouldn't follow my example tho," he said Saturday when issuing the invitation for the public to visit and inspect the home this week.

"This place belongs to the residents of Allen-co and they should feel free to visit it," he added.

"THEY'VE BEEN princes,"

Commissioners.

in 1875, has been given a major "face lifting" with the full support of the Allen-co Board of Commissioners.

They will be substituted for the true names for protection of the children involved, rather than thru regard for the adults.

Mrs. M originally was Miss X. She married a Mr. Y and they had three children. Then marital trouble developed. The youngest child was placed for adoption and Mr. Y and Mrs. Y each took one of the remaining children thru the court's divorce order.

MR. Y THEN married Miss Z, after she had borne two illegitimate children, both his. Since their marriage they have had two more children.

After Mr. Y and the first Mrs. Y were divorced, the first Mrs. Y became pregnant by an unknown father. She then met a Mr. M, who never had been married, and Mr. M and the first Mrs. Y were married. Mr. Y knowing that she was about to become the mother of a child not his.

Some time later a minor sister of Mrs. M came to live with them. New marital trouble has developed thru advances made by Mr. M, and admitted by him, to the minor sister and Mrs. M's younger girl, by her first marriage to Mr. Y.

This has resulted in separation and filing of another divorce action. Mrs. M is again pregnant.

Tyrone Power and Jackie Cooper will have leading roles in the play, scheduled to open in July for a six-month run. McDanel, a student at the American Academy of Dramatic Arts, New York City, has appeared in several off-Broadway shows.

There's Danger!

Safety Rules Listed for Kite-Flyers

Kite-flying can be dangerous! Here are some simple safety rules for flying that kite. The rules were announced Saturday by W. L. Flager, safety supervisor of the Ohio Power Co.'s Lima division.

1. Don't fly kites near electric lines. 2. Keep string and tail dry and never use when wet. 3. Don't use metal or wire on any part of your kite. 4. Don't use kite string with wire or tinsel in it. 5. Never climb a pole or tree near an electric line to recover a kite. 6. Better lose your kite than your life.

Every child should be informed of the danger of flying his kite near a power line, Flager said. There are many cases where a youngster has been electrocuted or seriously injured in this manner, he pointed out.

## Wednesday To Have 'T' Night for Census Takers

Enumerators To Check Transients in All Major Hotels, YMCA in One Major Project

Wednesday night will be "T" night at Lima hotels, Grover C. McDaniell, census district supervisor for the Lima area, announced Saturday.

To the enumerators in the 17th decennial census, "T" night means the time for counting transients.

Those "transients" who have spent the day riding trains, planes and automobiles will be included in the big count even tho their home town enumerator cannot find them.

McDaniell said the census will be conducted at the Reid, Kirwan, Barr, Argonne, Lima House and the Waldo hotels and the YMCA.

ENUMERATORS will be stationed in hotel lobbies to assist any guest who requires aid in making out the report.

Charts and another story concerning the national census appear on page 11 in this section.

Information will be requested on these forms covering the usual census items such as name, race, sex, age, birthplace and citizenship and a few others on employment, income and marital status.

Arrests for traffic violations were 190 higher in March than in February with 732 last month and 543 in the preceding 30-day period. The patrolmen issued 4,849 written warnings during March and 3,315 in the preceding month.

Robert Miller, 26, 975 S. Central-av, and Donald Noel Strahm, 18, of 201 S. Jackson-st, entered pleas of not guilty in Municipal court Saturday morning to two charges each of breaking and entering. Both men were accused of burglarizing the High-st Market and Gregg's department store early Friday.

Strahm waived preliminary hearing and was bound to the Allen-co grand jury. Bond was set at \$500 for each charge by acting Judge F. Wemmer Gooding in Municipal court.

Miller's attorney asked for a preliminary hearing date and it was set for 2 p. m. Monday, pending the availability of a court stenographer. Bond was set at \$1,000 for each charge in Miller's case.

### Lima's Sigma Theatre Reopens Friday Night

#### \$175,000 Rebuilding Program Completed Thursday after Destructive 1949 Fire

Warner Bros. Sigma theatre, rebuilt following a disastrous fire early on Mar. 1, 1949, will open its doors at 5 p. m. Friday. Final touches were being applied Thursday to the \$175,000 building and refitting program which was started last October. Ted Davidson, manager of the theatre, said no elaborate ceremonies will be held for the reopening.

The "new" theatre has 815 seats, 75 fewer than the old theatre. Wider aisles and a more efficient seating arrangement has taken up the extra space.

TED DAVIDSON

NEW SOUND system, screen, and special acoustical treatment, air conditioning, new marquee, restrooms and indirect lighting have been added.

Earl Craft, former manager of the Warner Bros. Capital theatre in Sidney, has taken over the management of the company's State theatre here. Davidson has directed the State since the fire on a temporary basis.

With the exception of the walls and some projection equipment which escaped serious damage in the blaze, the showhouse was destroyed in the fire.

Cause was never determined but firemen traced the fire's origin to a women's restroom.

Miss Espersen and Mrs. Ritter  
Danish Student Talks to AAUW

Altho Miss Karen Espersen of Holme-Olstrup, Denmark, knew about America only from newspapers and movies, she told members of the Lima branch, American Association of University Women, Wednesday that she is not surprised nor disappointed in what she has found in Ohio.

The speaker, who is doing graduate work this year at Ohio State university on an AAUW fellowship grant, is shown at left with Mrs. Karl Ritter, 1420 Shawnee-rd, Ohio Division fellowship chairman.

Miss Espersen addressed the branch members at an evening meeting in the Friends of Music Art Center.

IN DISCUSSING HER native country, Miss Espersen said that state socialism is well advanced, having control of state supported religion—the Lutheran church, control of medicine and of the railroads.

Their king has less power than Mr. Truman, and never vetoes any bill, she said.

The status of women is about as it is in the United States, except that Denmark has a higher percentage of women in professional life. In their 143-seat House of Representatives, 14 women now hold seats. The Social Democrat party is in power at present.

DANISH TRAVEL, even in Copenhagen, is mainly by bicycle, the country being so small and flat—about half the size of Ohio.

### Safety Council OKs Car Check

#### Voluntary Inspection Program Begins May 1

The Allen-co Safety Council gave its approval Wednesday night to an automobile safety check program, being promoted on a statewide basis by the Ohio Automobile Dealers-assis.

Judge Walter S. Jackson, president of the council, spoke briefly in support of the plan at a meeting in the offices of the Lima Association of Commerce.

# Humbert Sets Arbor and Bird Day Program Late in April

Arbor and Bird Day will be observed in Lima public schools the latter part of April, Supt. Gordon G. Humbert announces.

In a bulletin to all principals, Humbert pointed out that "the need for conservative education is continuous thru the year and its importance as an area for concern does not pass with the expiration of a particularly designated period."

He went on to explain that "only thru sympathetic and intelligent awareness of the necessity for conservation—understanding of the fact that human beings are interdependent with other living things and the non-living world of water, air and earth—can we hope to preserve ourselves and our civilization—thru the development of a program of intelligent use of the earth's resources."

HIS BULLETIN contained a suggested Arbor Day program, to include reading of the governor's proclamation, talks on resources and singing.

The program would be climaxed by the tree-planting ceremony in the school yard.

Other Ohio schools observed Arbor Day Friday by suggestion from Gov. Frank J. Lausche's proclamation.
